To Whom It May Concern,

WA SPITROAST

RugbyWA have been using WA Spit Roast for its catering requirements during the 2006 and 2007 Super 14 Rugby Seasons.

The catering that WA Spit Roast are required to provide for us, includes players meals on all designated training days, pre-game meals as well as lunches and dinners for the various functions that are held from time to time at our headquarters.

As this catering involves providing meals to elite sportsmen, there is a necessity for WA Spit Roast to have a knowledge and understanding of nutritional requirements of our athletes, to enable them to formulate and develop appropriate menus. This is done by working closely with our nutritionists, Glenn Cardwell and Sophie Porter.

WA Spit Roast have taken their responsibilities very seriously and have continued to work tirelessly to ensure that we are being provided with the freshest and best quality produce for all of our meals.

We have often needed to call on WA Spit Roast at very short notice, and they have responded courteously and efficiently – with nothing ever seeming to be a problem.

I would certainly have no hesitation in recommending their services. Please feel free to call me if you wish.

Kind Regards

Richard Trend
